PROFESSIONAL SUMMARY

Backend Developer with 5 years of experience building and scaling Node.js/Express.js applications, specializing in RESTful API design and third-party notification integrations (Slack, Twilio, Microsoft Teams). Delivered real-time notification systems supporting 10,000+ users, restructured 100+ API endpoints for consistent front-end data contracts, and built 50+ reusable email templates that streamlined communication workflows. Skilled in MySQL, Git-based collaboration (GitLab, Bitbucket), and full SDLC ownership from design through deployment.

TECHNICAL SKILLS

- Frontend: HTML, CSS, Bootstrap
- Backend: JavaScript, Node.js, Express.js, PHP, Java
- Database: MySQL
- Authentication & Security: OAuth Flow, JWT (JSON Web Tokens)
- Third-Party Integrations: REST API, Slack, Twilio, Microsoft Teams
- Version Control: Git, GitHub, GitLab, Bitbucket
- Project Management Tools: OrangeScrum, GitLab, Bitbucket

PROFESSIONAL EXPERIENCE

Node.js Developer

July 2021 – June 2026

AROSYS / VYAKAR TECHNOLOGIES PVT. LTD. — *LeadAngel (Product)*

- Built and integrated Slack and Microsoft Teams bots for automated, trigger-based notifications, delivering real-time updates to 10,000+ product users.
- Designed and maintained 50+ dynamic, reusable email templates for automated transactional messaging, standardizing communication across the platform and reducing manual template upkeep.
- Restructured RESTful API responses across 100+ endpoints to align with front-end UI requirements, ensuring consistent data contracts and reducing integration issues for the front-end team.
- Implemented a real-time lead notification system that alerts users the instant a new lead is received, cutting lead response time from delayed/manual checks to near-instant delivery for 10,000+ users.
- Coordinated sprint delivery using OrangeScrum and maintained 5+ code repositories across GitLab and Bitbucket, supporting continuous delivery for the LeadAngel product.

PROJECTS

Employee Leave Management System

February 2021 – July 2021

AROSYS / VYAKAR TECHNOLOGIES PVT. LTD. — *Internship Project*

- Built with Node.js and MySQL: designed and developed a system to track leave balances and automate deduction calculations for 500+ employees, replacing a manual, error-prone process.
- Gained hands-on experience across the full backend workflow — API design, database schema design, and business-logic implementation — during the internship.

EDUCATION

Master of Computer Applications (MCA)

Chhattisgarh Swami Vivekanand Technical University, Bhilai, CG | August 2019 – July 2021 | 86.1%

Bachelor of Computer Applications (BCA)

Hemchand Yadav Vishwavidyalaya, Durg, CG | July 2015 – August 2018 | 64.8%
